## REPOA's Resource Centre to be open on Mondays starting January 2012

REPOA's library was established right after the beginning of REPOA's operation in 1995, and has been growing over more than a decade now. In 2010, the library was converted into a resource centre, offering a wider range of digital and print information resources relevant and useful for development research, training. Coherent policy formulation, dialogue and analysis. Our users can browse these resources by going to the library catalogue.

Following an increase in demand from visitors for the use of the resource centre which was only open to the public from Tuesday to Friday, effective January 2012 the resource centre will also be open on Mondays.

REPOA's Resource Centre has a wealth of information relating to REPOA's research agenda with the themes of Growth and Poverty/ Development and Economics, Vulnerability and Social Protection, Governance and Service Provision, Environment/Climate Change and Agriculture, Gender, and Technology.

The opening hours for the Library will remain the same, from 10:00 – 13:00 and 14:00 – 17:00 (Monday – Friday), this excludes public holidays.

The library is free and open to all members of the community.

## REPOA is now engaged in Social Media

The importance of social media has become increasingly significant in its ability to reach and engage with a vast number of people. With that in mind, in October of 2011 REPOA began implementing a newly developed social media strategy to optimise our information dissemination.

It is our aim that exploring these new avenues to engage with our stakeholders will boost the utilization of knowledge and research findings that REPOA produces.

To start with REPOA can be found on Facebook, Twitter and Scribd. Here, updates on call for proposals, research reports, training, open seminars and workshops will be available, with full versions of new publications available on Scribd. To receive REPOA news and related information on these social networks, please click on the icons below:
